This sales and advertising literature is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus. This literature must be read in conjunction with the prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of the prospectus must be made available to you in connection with any offering. No offering is made except by a prospectus filed with the Department of Law of the State of New York. Neither the Securities and Exchange Commission, the Attorney General of the State of New York, nor any other state securities regulator has approved or disapproved of these securities or determined if the prospectus is truthful or complete. Any representation to the contrary is a criminal offense. This material is not for use in the State of Ohio.
Commercial real estate (CRE) credit and securities investments are subject to the risks typically associated with CRE which include, but are not limited to: market risks such as local property supply and demand conditions; tenants’ inability to pay rent; tenant turnover; inflation and other increases in operating costs; adverse changes in laws and regulations; relative illiquidity of real estate investments; changing market demographics; acts of nature such as earthquakes, floods or other uninsured losses; interest rate fluctuations; and availability of financing.

Investing in our common stock involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. You should carefully review the “Risk Factors” section of the prospectus for a more detailed discussion. Some of the more significant risks relating to an investment in our shares include:

- We have a limited operating history, and there is no assurance that we will achieve our investment objectives.
- This is a “blind pool” offering. You will not have the opportunity to evaluate our future investments before we make them.
- Since there is no public trading market for shares of our common stock, repurchase of shares by us will likely be the only way to dispose of your shares. Our share repurchase plan will provide stockholders who have held their shares for at least one year with the opportunity to request that we repurchase their shares on a monthly basis, but we are not obligated to repurchase any shares and may choose to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month at our discretion. In addition, repurchases will be subject to available liquidity and other significant restrictions. Further, our board of directors may modify, suspend or terminate our share repurchase plan if it deems such action to be in our best interest and the best interest of our stockholders. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and we have no limits on the amounts we may pay from such sources.
- Following the NAV Pricing Date, the purchase and repurchase price for shares of our common stock are generally based on our prior month’s NAV (subject to material changes as described above) and are not based on any public trading market. The valuation of our investments is inherently subjective, and our NAV may not accurately reflect the actual price at which our investments could be liquidated on any given day.
- We have no employees and are dependent on the Advisor and the Sub-Advisor to conduct our operations. The Advisor and the Sub-Advisor will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among us and Other Sound Point Accounts, the allocation of time of their investment professionals and the substantial fees that we will pay to the Advisor and that the Advisor will pay to the Sub-Advisor.
- This is a “best efforts” offering. If we are not able to raise a substantial amount of capital on an ongoing basis, our ability to achieve our investment objectives could be adversely affected.
- If we fail to maintain our qualification as a REIT and no relief provisions apply, we will have to pay corporate income tax on our taxable income (which will be determined without regard to the dividends-paid deduction available to REITs) and our NAV and cash available for distribution to our stockholders could materially decrease.

As with any investment, there are certain risks associated with credit investing. Such risks include, but are not limited to:

- the risk of nonpayment of scheduled interest or principal payments on a credit investment, which may affect the overall return to the lender; interest rate fluctuations, which will affect the amount of interest paid by a borrower in a floating-rate loan that adjusts to current market conditions;
- default risk, which means that the loan may not be repaid by the borrower; and
- the risks typically associated with real estate assets, such as changes in national, regional and local economic conditions, local property supply and demand conditions, ability to collect rent from tenants, vacancies or ability to lease on favorable terms, increases in operating costs, including insurance premiums, utilities and real estate taxes, federal, state or local laws and regulations, changing market demographics, changes in availability and costs of financing and acts of nature, such as hurricanes, earthquakes, tornadoes or floods.
Investment Objective

InPoint Commercial Real Estate Income, Inc. (InPoint) seeks to pay attractive and stable cash distributions and preserve capital by investing in commercial real estate mortgages.

There is no assurance that we will achieve our investment objectives.

Investment Strategy

Attractive Income Potential

- Originate, acquire and manage a diversified Commercial Real Estate (CRE) credit portfolio (first mortgage loans, credit loans, commercial mortgage-backed security/CMBS) backed by income-producing properties
- Investments are primarily floating rate, where the interest typically adjusts every 30 days
- Thorough investment process with underwriting based on third-party reports, site visits and other review criteria to identify quality properties owned by experienced operators
- Complements a real estate equity allocation and provides the opportunity to diversify a traditional fixed-income portfolio
- Low historical correlation to stocks, bonds and equity REITs
- Portfolio managers with more than 30 years of industry experience resulting in long-standing financing relationships which may provide access to potentially attractive loan opportunities

Industry Leading Real Estate and Credit Managers

Advisor

Inland Real Estate Investment Corporation (Inland Investments) – More than $24 Billion in Capital Raised

Grounded in the belief that clients come first, Inland Investments is a recognized sponsor of CRE investment solutions. Over the years, it has developed and expanded its products and expertise to help advisors and investors diversify sources of income beyond traditional fixed-income investments.

Sub-Advisor

Sound Point Capital Management, LP (Sound Point) – More than $20 Billion in AUM

Sound Point is an asset management firm with extensive expertise in credit strategies. It was founded by a former Banc of America executive and principals of Stone Point Capital, a global private equity firm. Sound Point manages money on behalf of institutions, pensions, foundations, insurance companies, wealth management firms, family offices and high net worth individuals. Its track record has culminated in nominations for many distinguished investing awards.

Sub-Advisor Portfolio Managers – Proven Credit Analysis Experts

InPoint’s portfolio managers have collectively participated in more than $100 billion of CRE-related transactions and are regarded for their comprehensive financial, structural, operational and legal due diligence to assess the risks associated with originating loans.

Donald MacKinnon

- 31 Years of Experience
- Co-Head of Commercial Real Estate, Donaldson, Lufkin & Jenrette
- Head of U.S. Commercial Real Estate, Nomura Securities International
- Founder and President, Realty Finance Trust, Inc.

Andrew Winer

- 28 Years of Experience
- Head of Global CRE CDOs, Credit Suisse
- President and Chief Investment Officer, Global Net Lease (NYSE: GNL)
- Chief Investment Officer, Realty Finance Trust, Inc.

1 NAREIT, Why Invest in REITs. 2018. Article states “The relatively low correlation of REIT returns with the returns of other equities and fixed-income investments makes REITs a good portfolio diversifier, helping to reduce a portfolio’s overall volatility and improve its returns for a given level of risk.” Article available upon request.

2 The Inland Real Estate Group of Companies, Inc. comprises a group of independent legal entities some of which may be affiliates, share some common ownership or have been sponsored and managed by subsidiaries of Inland Real Estate Investment Corporation. Capital raised as of Q4 2018. Inland InPoint Advisor, LLC, a wholly owned indirect subsidiary of Inland Real Estate Investment Corporation, acts as the advisor.

3 AUM as of November 30, 2019. SPCRE InPoint Advisors, LLC is an affiliate of Sound Point Capital Management, LP and acts as the REIT’s sub-advisor.

4 Sound Point has received nominations for several distinguished industry awards, such as 2018 Finalist Allocator Investors Choice Awards, HFMWeek U.S. Hedge Fund Performance Awards 2017 and CreditFlux Manager Awards 2017 Finalist.
Potential Market Opportunity and Favorable Investment Environment

Historical Higher Total Returns with Less Volatility
Mortgages backed by income-producing commercial real estate have historically provided higher total returns with less volatility than comparable fixed-income investments.\(^5\)

Past performance is not a guarantee of future results. Benchmarks shown are for illustrative purposes only. An investment cannot be made directly in an Index. InPoint’s performance may be lower or higher and differ substantially than the indices shown. An investment in a non-listed REIT is not a direct investment in commercial real estate. There are significant differences between commercial real estate and non-listed REITs.

Loans Have Performed Well Across Market Cycles
Prior performance shows that loan losses historically have only spiked in major financial crises and loans have done well through regular up and down economic cycles.\(^6\)

There is no guarantee that market conditions will continue to be favorable.

---

\(^5\)CRE first mortgages are represented by the LifeComps Commercial Mortgage Loan Index. The LifeComps Commercial Mortgage Loan Index measures actual private commercial mortgage market loan cash flow and performance data collected quarterly from participating life insurance companies since 1996. Commercial mortgages may be subject to default risk. Investment Grade Corporates are represented by the Bloomberg Barclays Investment Grade Corporate Bond Index. The Bloomberg Barclays Investment Grade Corporate Bond Index measures the U.S. dollar-denominated investment grade, fixed-rate, taxable corporate bond market. Corporate bonds may be subject to default and interest rate risk. Loans are represented by the Credit Suisse Leveraged Loan Index. The Credit Suisse Leveraged Loan Index tracks the investable market of the U.S. dollar-denominated leveraged loan market. Leveraged Loans may be subject to default risk. High Yield is represented by the Credit Suisse High Yield Index. The Credit Suisse High Yield Index is designed to track the performance of U.S. dollar-denominated below investment grade corporate debt publicly issued in the U.S. domestic market. High yield bonds may be subject to a higher default risk than loans. Each asset class is suitable for specific investor objectives, which vary greatly. Data available upon request.

High Demand for CRE Credit – $2.1 Trillion of Mortgages Maturing Over the Next 5 Years

There is a growing need for debt capital in the $3.1 trillion U.S. CRE mortgage market as $2.1 trillion in mortgages mature by 2024.\textsuperscript{7}

A Smaller CMBS Market is Paving the Way for Alternative Lenders

Commercial Mortgage-Backed Securities, or CMBS, are securities collateralized (bundled and sold as bonds) by loans secured by CRE property. Although the CMBS market is functioning, it is significantly downsized following the financial crisis due to capital requirements, new regulations regarding issuer reps, and risk retention rules that came into effect in 2016.

\textsuperscript{7}Trepp - Based on Federal Reserve Flow of Funds Data. September 2019. Data available upon request. Information is projected and actual results may vary.

\textsuperscript{8}Commercial Mortgage Alert. January 2020. Article available upon request. Past performance is not a guarantee of future results.
InPoint Portfolio At-A-Glance
As of 12/31/2019

Portfolio Composition

The InPoint Opportunity

Traditional sources of income alone may not support ongoing income needs.

Consider an allocation to InPoint for the potential for:
- Stable Income
- Capital Preservation
- Lower Correlation\(^9\)
- Lower Volatility\(^10\)
- Favorable Taxation\(^11\)

There is no assurance that we will achieve our investment objectives.

\(^9\) NAREIT. Why Invest in REITs. 2018. Article states “The relatively low correlation of REIT returns with the returns of other equities and fixed-income investments makes REITs a good portfolio diversifier, helping to reduce a portfolio’s overall volatility and improve its returns for a given level of risk.” Article available upon request.

\(^10\) InPoint’s share price is subject to less volatility compared to public equities and fixed-income investments because its per share NAV is based on the value of real estate assets it owns and is not subject to public-market pricing forces as is the price of public equities and fixed-income investments. Although InPoint’s share price is subject to less volatility compared to public equities and fixed-income products, the value of real estate loans may fluctuate and be worth less than was initially paid. InPoint shares are significantly less liquid than public equities and fixed-income products and are not immune to fluctuations.

\(^11\) Barron’s. New Tax Plan Is Boon for REITs. September 2018. InPoint may not continue to qualify as a REIT. Investors should consult their tax advisor for specific advice. Article available upon request.
